

## HOW TO PLAY:

This game works just like Jeopardy! You can change the screen to presentation (just like you would to show the slide show). Once you are on the game board (slide 2) each team will choose the question they would like to answer. Do not delete any of the slides, or the links will not function correctly.

Since this is an editable template, you will need to go in and type your own questions and answers. The first slide (all odd number slides) are for questions and have an answer button in the bottom corner. All even number slides are answer slides and have a home button in the bottom corner.

Different level questions are categorized by single, double, triple, homerun, and grand slam. To choose that question simply click on the word and it will go directly to that slide. Once students have answered the question, you can click on the answer button in the bottom right hand corner to reveal the answer. Once you are ready to go back to the game board, click on the home button in the bottom left hand corner.

You can play this up as much as you want! This is the perfect chance for a class transformation! You could have each table team represent a different baseball team and earn runs for their team. You could give out tickets to the game beforehand! Do as little or as much as you would like!

Please let me know if you have any questions or something doesn't work the way it should! Feel free to email me at [willteachfortacos@yahoo.com](mailto:willteachfortacos@yahoo.com).
