

DIGITAL NUMBER OF THE WEEK

Click the link to access the whole number and decimal version of number of the week

https://docs.google.com/presentation/d/1fqqbWd_Guqxj9WcNZQPUM-y_sLuJgSLoF0dLQQPzryQ/copy

You will be prompted to make a copy. Before assigning to your students, make an additional copy and then delete the slides you do not want students to complete.

I recommend giving students one whole number and one decimal number to work on for the whole week (great as a bell ringer!)

Here are a few **example slides** if you are needing guidance on what students should do for each section of the activity.
